

BRITA™

ELITE™ FILTER
FILTRE ELITE™
ELITE™ FILTRO

**Cheers
for choosing
BRITA® over
bottled water!**

USER'S GUIDE

514018 002

**You're just minutes
away from better
water without
the waste.***

Visit brita.com/performance-data to
find the full list of contaminants
reduced, sign up for filter reminders,
earn points, claim rewards and more!†

* Vs. tap water. No single-use plastic bottle waste.

† Points and rewards available to U.S. residents only.

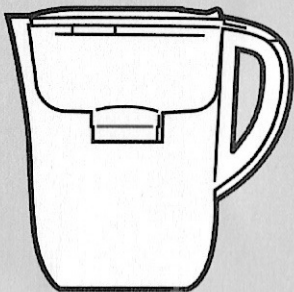

Savourez en quelques minutes une eau meilleure, sans produire de déchets*.

Usted se encuentra muy cerca de tener un agua mejor sin residuos.*

* Comparativement à l'eau du robinet. Aucune bouteille en plastique à usage unique à jeter.

1

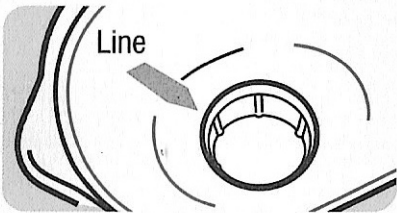

Hand-wash* pitcher, lid and reservoir. Rinse well.

*Do not wash in dishwasher.
Do not use abrasive cleaners.

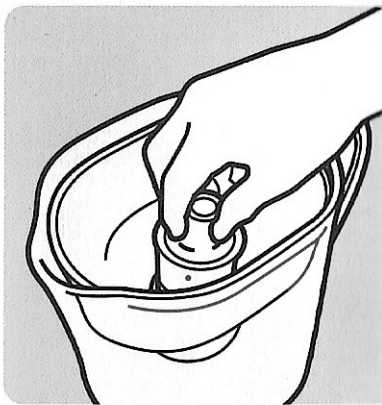

2

Remove lid and insert filter below line to seal.

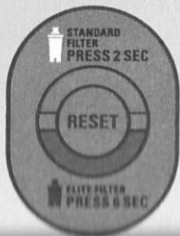

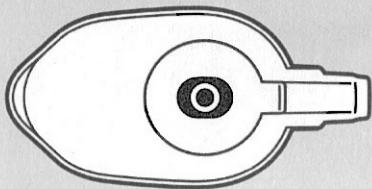

3

Press firmly to ensure the filter is secure.

4

To set the filter life status indicator, press the RESET button and hold it down for 6 seconds, until a green light on the bottom half circle blinks three times.

5

Once set, the light on the indicator will pulse every time you pour:

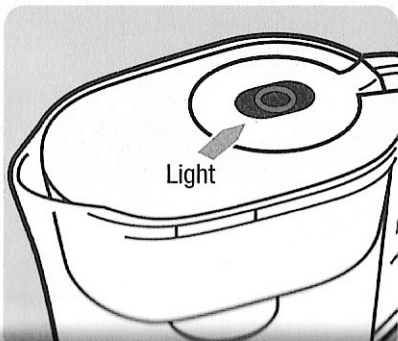

■ **Green** – Filter life sufficient

■ **Yellow** – You've filtered 115 gallons (435 L), replace filter soon

■ **Red** – You've filtered 120 gallons (454 L), time to change filter

Visit brita.com for more details.

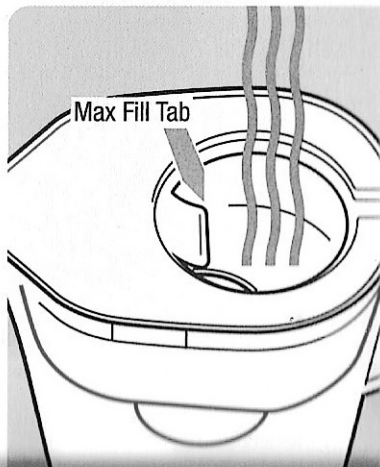

Canada: Visit brita.ca.

6

Pour out first 3 full pitchers of water (6 reservoir fills) or use to water plants.*

*Hot water shouldn't be used with the Brita® Elito filter (Max. 85°F/29°C – Min. 32°F/0°C).

**Félicitations
d'avoir choisi
BRITA® au lieu
de l'eau
embouteillée !**

**¡Gracias por
elegir BRITA®
antes que
el agua
embotellada!**
